the highlight of the trip- Gorilla trekking, which may last the entire day. We trek the gorillas through the rainforest and bamboo covered slopes, accompanied by a guide and trackers, in search of a mountain gorilla family. The walking can sometimes be tough and long, but when you catch a glimpse of the magnificent silverback, any discomforts will be quickly forgotten. When the gorillas are sighted, visitors will be guided to within 6 metres from the gorillas, sit around them for a whole hour while gazing into their big round eyes.

Gorilla trekking is unpredictable. It's difficult to foresee how many hours you will hike. The gorilla excursion can take from 2 up to 8 hours. Expect to walk along distance in steep and muddy conditions, sometimes with rain overhead, before you encounter any gorillas. A good physical condition is recommended. For conservation purposes, time spent with the gorillas is limited to one hour. A ranger will brief you on how to behave with the gorillas.

After this gorilla safari tour, you will descend back to the park headquarters where you will be awarded with gorilla trekking certificates for participation in gorilla trekking activities some funds are used in the gorilla conservation and community support.
